

### YOUTHFUL RUNAWAYS.

#### A Grave Offense for which a Requisition is Sought.

#### A FOURTEEN-YEAR-OLD GIRL.

OF Steubenville, Ohio, with a Young Man, Taking All of Her Father's Savings—They are Arrested by a Telegraph in Philadelphia.

Special Dispatch to the Intelligencer. STEUBENVILLE, O., July 15.—James F. Stephens' daughter Anna, 14 years of age, and Robert Smurthwaite, 23 years old, striking potter and short stop in the old Steubenville baseball club, ran away together last night, taking four hundred and sixty dollars of the hard earned savings of the girl's father. They boarded the eastern Pan Handle mid-night train. They were arrested by telegraph in Philadelphia this afternoon and are held to await the arrival of the Marshall Scott with the requisition papers. To secure these the necessary affidavits, etc., have been prepared, and tonight the Marshall starts to Columbus to see the Governor, and then he will immediately proceed to Philadelphia.

The offense has a pretty grave look about it from several standpoints. Firstly, a girl may marry in Ohio with her parents' consent, at sixteen years of age, and not without the proper consent when under eighteen. Anna is fourteen, and Smurthwaite runs away with her at midnight.

THE GIRL MISSED. He had spent part of the evening with her, going out quite late. Later, after the parents had retired, Mrs. Stephens heard a noise as if some one had passed out, and arose to investigate. She soon discovered that Anna was missing, and told her husband, who immediately dressed and started out. He apprised the police, and then returned to the house to see if anything had been heard of her. It then flashed upon his mind to ascertain if anything was missing, and going to Anna's room he opened a chest where he kept his money, and found that it was all taken. Then the full measure of the affair dawned upon him and he again sought the police. But during this time the runaways had boarded the eastern mid-night train on the dark side, away from the station lights, and were speedily speeding on their way.

In the morning Mayor Brashear counseled telegraphing to different eastern points, and accordingly a description of the runaways, given by a photographer of Steubenville, and an order to arrest, was sent to Pittsburgh, Altoona and Philadelphia.

ARRESTED IN PHILADELPHIA. It was known that Smurthwaite had a sister in Trenton, N. J., and he had talked of having secured a good job there, so it was naturally thought that they were heading for that region, famous also for its Gretna greens.

This afternoon about 3:30 the following telegram was received by Mayor Brashear:

"Have arrested Robert Smurthwaite and Anna Stephens. Send them here at once."

(Signed) CHARLES N. WOOD, Chief of Detective Bureau.

As soon as the requisition papers had been secured that he would be. The father stated to the correspondent of the Intelligencer that he was so nervous and excited that he could not talk without trembling. This was true, and hence was obliged to take his seat and let the Mayor speak for him. It was a keen blow to him. He, however, was hearing the story as here stated. He also said that he was saving his earnings with the view of going West in the hope of bettering the condition of himself and family. It was with this end in view that a week ago he quit his position in Robinson, Irwin & Co.'s machine shop. It seems, however, that Anna was reluctant about going West, but didn't object to going East.

It is stated that the girl told some of her friends that evening that she was going to sleep with Bob, but it seems that no attention was paid to it.

The whole affair is making a decided sensation here, and while the girl's parents are sympathized with, it is felt that Smurthwaite was no much older as to be a grave offender and in all likelihood the leader in the shocking affair, and that he should be made to suffer severely and to the full extent of the law.

### NATURAL GAS BONDS.

Eminent Council Retained to Fight the Toledo Issue in All Courts.

TOLEDO, O., July 15.—To-day the services of Judge Stevenson Burke, of Cleveland, were secured as counsel to fight the Toledo natural gas bond issue. The State and Federal courts to meet the points on gas for free and he refused a preliminary injunction recently at Nashville. These cases involve the power of the State Legislature to authorize municipalities to buy natural gas, drill wells and build pipe lines to supply natural gas for free and he levied taxes to pay such bonds, as well as the alleged conflict of the law applicable to Toledo with specific clauses of the Ohio Constitution. No preliminary injunction will be applied for, as the case of Toledo is now being decided by the court, and Judge Burke will endeavor to have the cases pushed to a hearing as soon as possible.

Acting Secretary Batchelor informed Mr. Huntington that the collector's action was in accordance with previous decisions of the department, but that he would comply with the request of the transportation company to postpone further action until the question can be presented in a diplomatic way through the Chinese legation at Washington. In the meantime the collector was instructed to detain the Chinese but not to allow them to land.

#### TRIAL IN KANAWHA COUNTY.

Three Hundred and Fifty Thousand Dollars at Stake—Prospects of a Lynching—Pension Board. Other News from the State.

### Special Dispatch to the Intelligencer.

CHARLESTON, W. VA., July 15.—Probably the most important suit before the Circuit Court at its present term was that of Mrs. Sarah H. G. Pennybacker against John B. Laidley and others. All the parties are residents of Cabell county, and the suit was originally brought before the Cabell Circuit Court, but was removed to this county. It involves the title to 240 acres of land within the corporate limits of Huntington, valued at about \$350,000. The land was originally sold by Mrs. Pennybacker to C. P. Huntington in 1870, and afterwards to John B. Laidley, who brought suit against the Central Land Company. In the litigation which followed the Supreme Court held that the knowledge of the deed to Huntington was defective and that Laidley was entitled to a receiver. Mrs. Pennybacker then brought suit against Laidley to set aside her deed, and it was then that she learned that Laidley had sold the land to the Central Land Company. The case has been argued at some length by Messrs. Simms & Enslow, of Huntington, and Judge J. H. Jackson, of this city, for the plaintiffs, and by Messrs. J. F. Brown and John E. Kenna for the defendant. Judge Jackson rendered his decision in the case this afternoon, setting aside the deed to Laidley. Counsel for defendant have given notice of an appeal to the Supreme Court and the case will be hotly contested.

One of the Company's several proposed mines will be located at this point, and within a year what is now a hamlet of less than a dozen houses will be a thriving mining town of many hundreds of inhabitants. #### From a Bloody Riot—The Happy Termination of the Carnegie Strike.

PITTSBURGH, Pa., July 15.—There has been great rejoicing at Homestead to-day, over the settlement of what threatened to be the greatest contest between labor and capital Allegheny county ever had. It has been learned that in anticipation of a desperate struggle, the workmen had made elaborate preparations. They had agents in the principal cities of England, Scotland and Wales to notify them if it were attempted to send foreigners here in violation of the immigration law, while in this country every source from whence workmen could be secured was similarly covered. Good authority is given for the statement also that 500 rifles were stacked in an old barn in the vicinity of Homestead for the immediate use of the strikers, should occasion require, and men from other mills were in readiness to respond to the call for help from their Homestead brethren.

### ENGINEERS' BROTHERHOOD.

#### A Proposition to Amalgamate With Other Railroad Organizations.

SPRINGFIELD, Ill., July 15.—About four hundred representatives of the local Brotherhood of Engineers of the State held a secret meeting here yesterday. Brown was present and addressed the meeting. He was in favor of amalgamation. What decision was reached by the delegates can't be ascertained. A well known railroad official said last night however, that it has been decided that the railroad circles for some time past have been considering the amalgamation of the strike on the Burlington system and it has been understood that this meeting was to consider the best plan of retrieving their former power. Representative of the Brotherhood of Engineers and the other railroad men on every western road was present. This course was strenuously opposed by the officers of the Brotherhood, but there seems to be good reasons for considering the move was discussed. Representative of the Brotherhood as far east as Ohio and from the Western States were present.

After the association is formed each producer will be allowed to ship his own district. The loss on the long freight haul will be adjusted and prices will go up 10 cents a barrel.' ### INTERVIEW WITH KILRAIN.

#### He Proves That the Reports of His Having Been Badly Beaten Were Exaggerated by Stripping and Inviting Examination.

CHICAGO, July 15.—The following interview with Jake Kilrain just previous to his departure for the East last night is published here:

The reporter called Kilrain's attention to the published statements that he was not in condition when he went into the ring and that he was terribly bruised and battered when he came out of the ring. For reply Kilrain stripped to the buff and invited an inspection of his body. A scrutiny of his body showed no signs of a wound, swelling or discoloration.

Kilrain said: "Those reporters who said I was badly hurt were fools. They said that Sullivan's punishing blows had my back nearly broken in two, my ribs ached and I was injured internally so that I could not live. If Sullivan is the punisher they say he is, I was pounded the way they say I was, I ought to show some signs of it. If I was sick when I went into the ring, I was sick when I came out of it. I don't know how Sullivan could have done me good. I was beaten and have no excuse to make, but the sun had more to do with it than anything else. I was in the best possible condition.
